

## Hexane

**Product Description:** Hexane is a chemical solvent that presents as a clear, odorless liquid that has a high evaporation rate and low boiling point, which makes hexane an ideal chemical for extraction. In addition to having the ideal properties for extraction hexane also produces no toxic fumes which is preferred for the safety of the user.

**Applications:** Hexane is a common solvent for inks, varnishes, and glues such rubber cement and adhesives. In the printing business, hexane is often employed as a degreaser and cleaning agent.

**Packing:** Drum, Bulk

Parameter Name	Result	Unit	Method
Density @ 15°C	0.683	gm/ml	IS 1448 (part 16)
Density @ 20°C	0.66 to 0.687	gm/ml	IS 1448 (part 16)
Refractive Index	1.38230		D 1218
Distillation – IBP	63.5	°C	D 86
Distilled between 64 - 70°C	97.6	%	D 86
Sulphur Content	1.0	Mg/kg	D 5453
Benzene Content	0.020	%	D 6730
Aromatic Content	0.020	%	D 6730
Non Volatile Residue in g/100ml	0.0005	g/100ml	IS 3470A
Saybolt Colour	30	%	IS 1448 (part 14)
Saturates %	99.9	%	IS 1448 (part 23)
